ARC USERS GROUP MEETING

Date: Friday, October 29

Time: 9:30 AM-2:00 PM

Location: Concord, John O. Morton Building, NH Department of Transportation, 7 Hazen Drive, Room 114 (For a map, see: <http://webster.state.nh.us/dot/findus-jom.htm><<http://webster.state.nh.us/dot/findus-jom.htm>>)

AGENDA:

10:00-12:00 & 1:00-2:00 PRESENTATIONS

10:00 -10:30: Kevin Rose from Microdesk: **Data Integration with ARCGIS and CAD.**

10:30 -11:15: Tim Gunn from the City of Concord: **Live ArcGIS Presentation on Concord's Pavement Management System and other customized ArcGIS and ArcReader applications** . This system was developed using ArcGIS 8.x with the personal geodatabase (ESRI ArcView) integrated with a MS Access database. It is based on the Road Surface Management System (RSMS) developed by the UNH Technology Transfer Center (T2 or "T squared").

11:15 -12:00: Jim Irwin from the NHDOT: **Examples of Customized VBA applications for ArcGIS.** Jim will go into how they are developed and how you might get started on your own VBA applications.

12:00 - 1:00: LUNCH, NETWORKING & QUESTIONS (ROOM 114). Pizza will be ordered for those interested, food can be purchased from the cafeteria and brought back to Room 114, or you can bring your own lunch.

1:00 - 2:00: Marc Fish from NHDOT & Patrick Demer from ESRI: **Integrating GPS data into a GIS.** Marc will be speaking on collecting GPS data using Trimble and Garmin products and integrating the data into a GIS. Patrick will be speaking on using ArcPad for collecting and integrating your field data into a GIS.
